INO ANNUAL SYMPOSIUM 2016 FROM A QUANTUM PERSPECTIVE

27 - 28 october 2016

Area della Ricerca, Sesto Fiorentino & Sede INO Arcetri, Firenze

The INO Annual Symposium brings together researchers from INO, CNR and academic communities, presenting and discussing their most recent scientific results in a lively two-day meeting. In view of the announced Flagship initiative of the European Commission, the 2016 edition is especially focused on **Quantum Technologies**.

The Symposium will celebrate the official opening of the renovated INO historical headquarters in Arcetri, with local and national authorities, scientific and academic leaders, and entrepreneurs convening to create synergies and lay down strategic visions for INO future.
